

CASH TESTER

CC 611

The quickest mobile coin sorter available

This heavy duty, high-speed coin sorter counts as well sorted as mixed coins with more than 3,000 coins per minute. Thanks to the carrying handle and minimum weight the **CC 611** can easily be used transported.

Coins are counted on their diameter and also the value can be programmed: in this way the **CC 611** offers you the value of each counting! All possibilities and settings are clearly visible via the (adjustable) color display.

The **CC 611** combines existing technique with innovative improvements: a heavy-duty coin counter for each occasion!
